

NOTICE OF CONSTRUCTION: NO ON-STREET PARKING

400 EAST, AMERICAN FORK

Project: CDBG PHASE 9 ROAD & CULINARY IMPROVEMENTS

Dear Residents,

Starting the week of February 27th, K. W. Robinson Construction will start pulverizing portions of road (400 East) followed by utility installation. The construction operations will affect on-street parking and non-local vehicle access to this street. Please avoid on-street parking during working hours: Monday – Friday from 7:00 AM to 6:00 PM.

Local Traffic and Street Residents: We will try to keep access to your driveways open as much as possible although temporary driveway closures and detours will be necessary at times and may affect your normal driving routes and travel times. It is advised to allow additional time for travel during the duration of the construction. American Fork City staff will work with K. W. Robinson Construction to minimize impacts.

Construction impacts include restricted on-street parking, driveway closures (short/temporary), construction noise, odors, and uneven roadway surface.

Future advance notices of pending construction will be provided approximately 48-hours before the start of work.

Due to the necessary “No On-Street Parking”, we ask residents to please park vehicle(s) on adjacent side streets if vehicle travel is planned for this duration. In addition, we ask residents to be cautious of materials, debris, equipment, workers and other nuisances and hazards when near the construction zones.

We appreciate your patience during the construction period and apologize of the inconvenience. If you have any project related questions or concerns, please contact K. W. Robinson Office (435) 738-0200
